LIQUOR LICENSES IN P. ARE LESS BY EIGHTEEN

Provincial Board of Commissioners Complete Their Annual Revision.

GRAND VIEW, EDMONTON, TRANSFERRED TO G.T.P.
Changes in Districts of Inspectors; W. C. Kehoe, Calgary, Comes Here.

The result of the annual meeting of the provincial board of license commissioners is that the number of licensees in the province has been reduced by 18. Edmonton lost three licenses, Calgary three, Wetaskiwin two, Thibault one, Invermay one, Prince Rupert one, Peace River one, Hinton one, Havelock one, Taber one, Maple Leaf one, Dunsmuir one, Burdett one.

Four three months' licenses were issued in Lethbridge, a 60 day license in Calgary, a 40 day license in Frank, and a three months' license at Daysland.

The license of the Grand View hotel in Edmonton is under suspension and has been transferred to the Grand Trunk Pacific Development company, limited, the owners of the Gladstone, Mayfield, the new G. T. P. hotel.

The license of the hotel Myrtle at Edmonton has not been issued pending a transfer of the license, as recommended by the board.

Several changes are being made in the provincial liquor license inspectors. Inspector E. H. Garrison is transferred to District "E" to District "G," Inspector Wainwright, Coronation and Battle River, Inspector W. C. Kehoe is transferred from District "F" (Calgary) to District "E" (Edmonton). Inspector R. A. J. Little remains Inspector Kehoe at Calgary. These changes went into effect on Monday, July 6.

EXTENSIONS G.T.P. TRAIN SERVICE MAY BE APPROVED SOON

General Manager Morley Donaldson of the Grand Trunk Pacific railway came into the city today, his official car, "Transcontinental," being attached to the Prairie Express, which reached Edmonton at 11:45 a.m. It is expected that Mr. Donaldson's visit here will not be of long consequence, but that he will leave into the question of extending the service to the north, and on to Invermay, and that he may also decide to when a through train will be operated between here and Prince George, eliminating the McBride stop.

TWO SPECIAL TRAINS FOR LAKE WABAMUN ON SATURDAY NEXT

As the weeks pass and the summer progresses, Lake Wabamun continues to become more and more popular with Edmonton summer residents. Next Saturday at least two special trains will be run there over the G.T.P. The Builders' Exchange held its annual picnic on that date, leaving the city by special train in the morning, while the employees of the Marshall Wells Alberta company will leave about noon with another special. Both the 1:30 and 3:15 trains each Saturday are crowded to the limit, and the corresponding trains returning back Monday mornings, while the accommodations at the lake are taxed to the limit.

GIRL REVOLUTIONIST TO TELL U. S. WOMEN OF SIBERIA'S HORRORS

MARIE SUKLOFF.

New York, July 7.—Now a resident of New York is Marie Sukloff, a young Russian revolutionist, whose 28 years of life, unfolded, contains more thrills and adventures than the first bit of fiction—twice sent to Siberia, twice escaping; she has spent three years in solitary confinement and was for four and a half years imprisoned with a band of rebels at Akat.

Mrs. Sukloff, after spending a few weeks with Jane Addams, at Hull House, Chicago, and a few more with William Lloyd Garrison, at his home in New York, is expected to leave for the city of Vilna, her parents were hard working, orthodox Jews, who had become an avowed socialist and was the youngest member of the socialist revolution party, which included Catherine Brezhnevsky, the "grandmother of the revolution."

In February, 1902, she was arrested at Kishineff, when the government, after searching her house, found type that corresponded with the supply used in setting up some revolutionary proclamations—she was thrown into prison, where for 18 months before her trial she was kept in solitary confinement.

Her cell measured just six of her steps each way. Only fifteen minutes of each day was she allowed access to the prison yard. At her trial she was sentenced to life exile in Siberia. She escaped and reached Paris in 1904, where she stayed nine months. In 1905, by dying her hair, she eluded the strictest surveillance of the world. She was again arrested in January, 1906.

HUNDRED MILLION WOULD NOT COVER ALL WORK WANTED

Everybody Asking for Sewers, Pavements and Walks Over Whole City.

PROBABLY TO COME UP AT TONIGHT'S MEETING
Mayor Will Hardly Be Back in Time—Some Questions on Agenda.

Mayor W. J. McNamara did not arrive back from the east last night as was expected, but will almost surely come in tonight on the G. T. P. train, which reaches the city at 8:45. He will, however, hardly sit at tonight's city council meeting.

The public works committee of the council was to have held a meeting at 7 o'clock this morning to consider the question of financing local improvements. Alderman Jos. Driscoll, the chairman, however, phoned that he would not be present, while Alderman Sheppard is in Calgary and Alderman Smith did not show up either.

This may be the most important question to come up this evening. On account of the fact that the city is growing and the people are calling for more walks, more sewers, more pavements and so on, coupled with the other fact that big improvements which have already been decided upon are not yet finished and money is as yet scarce, the matter of local improvements is almost daily becoming harder to deal with.

Commissioner Saunders stated this morning that \$100,000,000 would be a conservative estimate for the improvements have been received, and this is in addition to those for which provisions have been made in the municipal budget. In the public works department waiting into the council chamber this morning, when it was expected a meeting of the public works committee was to have been held, with an armful of petitions and he said that another bundle quite as large had not then been looked through.

"As soon as pavements, walks or sewers have been laid a certain pool along a street or avenue, someone comes along and builds a house about a block further on and asks that the improvement be continued for another block. This goes on all over the city continually with the inevitable result that the only limit to the improvements to be carried out is the money available for them."

This statement was made in the chamber by one of the officials and it seemed to be the unanimous opinion that the city is in a bad way. In fact, stated an alderman, he would say as they should all be judged alike, as when petitions come in sufficiently signed, it means that the property owners along the street in question are willing to pay for them, through taxes. The street improvement, which would be paid for by the city as a whole.

Alderman Calder has two questions which will be answered at tonight's meeting. One is as to the Official Assessor and the other is as to the James Brodie. Alderman says he wants to know about the street railway at 14th street.

The public works commissioner will recommend to council that stretches of the city be improved on the following streets: 10th, 8th, 82nd, 102nd, 121st, 127th and 131st; also a concrete walk on 1st from 10th to 131st; 10th, 8th, 82nd, 102nd, 121st, 127th and 131st; also a concrete walk on 101st from 10th to 131st.

Found Mine in Good Shape
Hillcrest, Alta., July 7.—John Brown, general superintendent of the Hillcrest collieries with executive management both inside and outside the mine, was on the stand this morning on the Hillcrest inquiry.

He stated that he was inside the mine on Tuesday preceding the explosion and found everything in good shape.

MORE THAN DOZEN WELLS ARE DRILLING; FORTY HAVE RIGS

Edmonton and Calgary Becoming Meccas For Prominent Outside Oil Men—Dingman Stock Deal is Biggest Yet Made—Mistaken People File at Wabamun Will Conform With Regulations.

The biggest oil stock deal which has yet been put through in Alberta has just been completed by which eastern parties take over 250 shares of the Calgary Petroleum Products company (Dingman) at \$25 a share, the whole transaction involving \$20,500 cash.

Oil operators from all over the world, but principally from the western states, continue to arrive in Calgary and Edmonton, the two oil centers of the province.

One of the latest to come is Julius Fried, of Los Angeles, the locator of the famous Lakeview gusher, in Kern county, California, which produces 50,000 barrels of oil daily. Mr. Fried is at the King Edward hotel today. He is known to be connected with the Standard Oil interests and is looking over this part of the world as a prospective oil producer.

Leases Filed at Wabamun.
Mr. Fried made a trip west on the G.T.P. to Wabamun lake Saturday night, and the fact that he did so leaked out, with the result that yesterday morning a large number of leases were filed in the Edmonton land office for land hitherto famous only as summer resort property.

As a matter of fact, however, Mr. Fried was going north of Wabamun and took the G.T.P. to that point because trains are not running on the Canadian Northern yet.

Because of the fact that rentals for coal leases do not have to be paid for 30 days, many have tried to hold lands for all by filing for coal, waiting 30 days, and then filing for oil, and filling again for coal for a further thirty-day period.

Mr. Norquay, agent for the dominion lands here, however, states that no payment will be made a lease for oil except the payment of the first year's rental of 25 cents an acre, and filling with the conformity with the other regulations of the department. There is no way but one, and that is filling for coal first is merely throwing away money.

Fisher Gets Enquiries
The Edmonton board of trade is daily receiving enquiries regarding oil and machinery is an important item.

The complaint in the case was A. K. Orr of the Sovereign Life Insurance Co., who laid information to the effect that O'Connor had falsely represented himself to be an officer of the law, the case arising out of an insurance transaction with a client of Mr. Orr, who went to Mr. O'Connor as his lawyer, with the complaint that Orr had endeavored to get him to sign a petition stating that he had received a certain sum of money, and Mr. O'Connor, taking the boy's case in hand, proceeded to Mr. Orr's office and was alleged by Orr to have said that he was a police officer and to have warned Orr not to try and mislead his young client in any way whatsoever.

Mr. O'Connor was going to the police station with an officer when he met O'Connor and the policeman asked O'Connor to go to the station for an investigation. Arriving there, O'Connor was held for about half an hour until the chief arrived and he was liberated, but appeared in court this morning with O'Connor acting on his behalf, and was dismissed by Magistrate Massie. The information against Mr. O'Connor had not been laid against him, until after he had been taken to the station and released.

BETTER LIVE STOCK SHOW BUILDINGS HERE THAN TORONTO
B. F. Hicks and W. A. Clements, president and secretary, respectively, of the Dominion Holstein Breeders' association, are in the city, and are being shown around by officials of the provincial department of agriculture.

In the case of O'Connor vs. Mirvial, Mr. Justice Beck assessed damages for the plaintiff at \$15,000. G. B. O'Connor appeared for the plaintiff and H. A. Mackie for the defendant.

JUDGE AWARDS SUM OF \$1,750 FOR THE LOSS OF ONE EYE
Damages to the amount of \$1,750 were awarded by Mr. Justice Beck in favor of the plaintiff in a judgment handed down today in the case of Tolsey vs. Maas. The action was the result of a motor car accident, plaintiff being knocked down by the defendant's car.

ORANGEMEN CANNOT BE RESTRAINED FROM CELEBRATING 12TH
New York, July 7.—A London cable says: Despite the indications from the house of lords that Unionist leaders are ready to make all possible concessions to reach a compromise as regards Ulster, there is still a manifest feeling of pessimism among the Orangemen, and they are expected to have a grand parade on Saturday next in Ulster. In some of the more remote parts of the province, the Orangemen are expected to be restrained from celebrating the twelfth.

It will, it is realized, demand all the authority that Sir Edward Carson himself can exert to keep the Ulster volunteers in the leash, especially should the Nationalists take any liberties.

IT'S OWN BURGESS ONCE IN JAIL FOR FALSE PRETENSES

He Was Convicted and Served Time in Prison at Fort Saskatchewan.

MAKES ADMISSION AT COHEN CASE HEARING
Appeals For Protection, But Court Allows Story to Come Out in Evidence.

Arising out of the case of Morris A. Cohen charged last month with selling police coats with false pretenses to the extent of \$1,000, came the starting evidence this morning from Joseph Burgess, the Bulletin's star reporter, that two years ago he was convicted on a charge of falsifying a February 2nd, 1912, letter, and after serving two days, was allowed out on suspended sentence.

Burgess was a voluntary witness in the Cohen case, was under examination by Mr. O'Connell and admitted to having information to the police which led to the raiding of several houses in the east end of the city.

Burgess was questioned in regard to a conversation with Cohen which took place in the Queen's hotel, in which Burgess represented himself to be a Calgary capitalist and thus secured information from Cohen which went to involve the Bulletin in a February 2nd, 1912, letter, and after serving two days, was allowed out on suspended sentence.

Mr. O'Connell: You have done so, please, for the police, have you worked any more?

Yes.

You swear it? Haven't you worked among the prostitutes on Kinsington avenue to get evidence for the police?

No.

How long since you left Fort Saskatchewan where they seem to you must have been?

I object, your worship, this is not fair.

Magistrate Downes waived the objection and Mr. O'Connell continued his examination, and further questioning went to show that having been in the city, Burgess had been convicted on a charge of false pretenses to the extent of \$15, had been sentenced to the court, had served two days, and was allowed out on suspended sentence, and immediately after his release, was hired by the Bulletin as a reporter.

Do you ever get evidence for him? Burgess admitted to the court that from evidence submitted to the police by him, several raids had been made, and also admitted he had gone with the police on raids.

At the police investigation ex-Deputy Chief Wright stated that a woman of the underworld had said Burgess asked her for \$25 or he would expose her in the Bulletin.

Another witness, Turnbull, was on the stand this morning and when examined by his counsel never gave much the same evidence as the complainant, Christensen, gave under cross-examination yesterday.

The case was adjourned till 4 o'clock this afternoon, when Magistrate Massie said a clerk will be called as witnesses.

ONIE GIGGINS IS ACQUITTED CHARGE DIAMOND STEALING
Onie Giggins (colored) was today acquitted by Judge Taylor, in the district court, of the charge of stealing diamonds to the value of \$725 from Johnson and Hulsis. E. B. Cogswell appeared for the prosecution and A. G. MacKay for the defence.

The evidence was not conclusive and Mr. MacKay contended that the real culprit was a man who was recently sentenced to the penitentiary on a variance charge.

The charge against O. Giggins of having stolen diamonds from Johnson and Hulsis, will be heard before Judge Taylor in the district court Wednesday morning.

PEACE PROSPECTS FOR MEXICO HAVE GROWN BRIGHTER!

With Huerta No Longer a Factor in the Situation, the Constitutionalists Will Be Ready to Enter Negotiations With the Government for Settlement of Problems.

Washington, July 7.—Advices have been received at the state department confirming the reports from Mexico City that General Huerta is preparing for flight. After all the false alarms in regard to Huerta's intentions, officials are now convinced that he is actually on the point of leaving the capital and seeking refuge in a foreign country.

The understanding here is that General Huerta has accumulated a small fortune, which has been estimated at \$2,000,000, and deposited it in a Paris bank. How he will leave Mexico is still a matter for conjecture. At one time it was believed the Mexican dictator had arranged to go to Japan. Present indications are, however, that Huerta contemplates making his way to Puerto Mexico, at the southern end of the Tehuantepec railroad. There he would be able to sail for Havana or Vera Cruz where he could obtain passage to the United States.

Great Encouragement Given. The apparently authentic reports that General Huerta is about to retire from office have given great encouragement to officials of the Washington administration and others who are interested in the success of the effort to adjust Mexico's troubles through mediation. Opinion here is strong here that with Huerta no longer a factor in the Mexican situation the constitutional-

ists will be ready to re-enter into negotiations with the government at Mexico for a peaceful settlement of the domestic problems of the republic. Prospects for a definite decision having been reached by General Carranza, as first chief of the Constitutionalists, in favor of sending delegates to confer with the Huerta delegates or the internal normalization of Mexico are believed by Constitutionalists here to have considerably brightened by the arrangement between Villa and Carranza in the Torreon conference.

Wants Carranza to Resign. Studies here, however, indicate that Carranza resigns as first chief as one of the terms of solidifying the constitutionalists. Villa declares he is not after the presidency himself, but tells his friends that Carranza has become a bigger factor than the cause and that the people must choose between supporting an individual and a cause.

There are many Carranzalists who say the cause shall not suffer because of one man, and that if necessary to sacrifice such a person it will be done quickly.

Leading Constitutionalists assert that the cause shall not suffer because they were brought on by the first chief, who suddenly became dominating when surrounded by signs of power, money, automobiles and officers. There are many who predict that Carranza will be forced to resign, and that Villa will become the strong man of the Constitutionalists. From Torreon came reports that the mediators may fail as did those at Niagara Falls. General Antonio Villarreal, representing Carranza, has been in daily consultation with Villa, trying to persuade him to acknowledge Carranza as chief and continue the fight as a general equal in rank to Gonzalez and Natera. This Villa positively refuses to do.

To Plead for Huerta.

San Antonio, Tex., July 7.—John R. Sullivan, while acting as United States vice-consul at Saltillo, Mex., was imprisoned by the Federalists, who allied with Constitutionalists leaders to depose Huerta's life should Mexico City be taken and Huerta captured. Mr. Sullivan is returning to Saltillo as the representative of the United States at the headquarters of General Carranza, made this statement late yesterday before continuing his journey.

No Doubt of Outcome.

Torreon, Mex., July 7.—At the conclusion of yesterday's session of the Carranza-Villa conference, it was announced that all matters taken up had been arranged satisfactorily, and that there was no doubt that the outcome of the meeting would be entirely favorable to the Constitutional cause. It was made known that, but a few points remained to be settled, and those most of these would influence the result of the conference.

British Subject Released.

El Paso, Tex., July 7.—George St. Clair Douglas, the British subject held by Constitutionalists at Zacatecas, was released yesterday. His detention had been the subject of representations to Carranza and Villa agents here by H. C. Miles, British consul.

USE "TIZ" FOR SORE, TIRED FEET

"TIZ" for puffed-up, aching, sweaty, calloused feet and corns.

"TIZ" makes my feet smaller."

Good-bye sore feet, burning feet, swollen feet, sweaty feet, aching feet, tired feet.

Good-bye corns, callouses, bunions, nail spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous exudation which puff up the feet—the only remedy that does. Use "TIZ" and wear smaller shoes. "TIZ" is a delight. "TIZ" is harmless.

Get a tin box of "TIZ" now at any drugstore or department store. Don't suffer. Have good feet, glad feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

vice-consul, Theodore Hamm, American consul at Durango, who investigated the case, left here yesterday to return to his post and report on the Carranza case. The charge that Douglas assisted the Federalists at Zacatecas has been withdrawn, according to a telegram yesterday from Manuel de la Vega, Constitutional governor of Zacatecas state, in which he said Douglas was a general equal in rank to Gonzalez and Natera. This Villa positively refuses to do.

Held for Ransom.

New Bedford, Mass., July 7.—Juan Velasco, a wealthy Mexican cotton manufacturer, is holding for a ransom of one million pesos by a band of Zepato men, according to John Furness, of this city, who today invoked the aid of the state department in obtaining Velasco's release. Furness is a United States representative of the Velasco family. In a message to Secretary Bryan he said Velasco was threatened with torture unless the ransom was paid.

PELT KING GEORGE WITH LITERATURE OF SUFFRAGETTES

Militant Women Prepare Bombardment for Ruler and Queen in Scotland.

FORCIBLE FEEDING IS SUBJECT OF APPEAL

London Ministers Declare it is "Greatest Social Danger of Our Life."

Edinburgh, July 7.—The suffragettes' latest act of defiance was the pelted of King George and Queen Mary to prepare the usual suffragette demonstration, in which the bombardment of the royal couple with suffragette literature was the feature.

Two women obtained access to a balcony of a house opposite the station, and as the royal carriage emerged they threw down upon it a lot of suffragette appeals. Then two detectives seized them, spilling their aim. Some of the handbills fluttered into the street and the royal carriage passed over them.

The king, looking up, saw the women struggling in the arms of the officers. They were removed to the police station, the crowd along the way giving them a mixed reception of cheers mingled with hooting.

The women gave the names of Lock and Owen. Among them was a paper ball containing the message: "To show King George that women are persecuted for defending their freedom."

London, July 7.—Rev. R. J. Campbell, pastor of City Temple; the Rev. R. F. Horton, pastor of Lyndhurst road, Hampstead; the Rev. J. H. Shakespeare, and several other prominent nonconformist ministers have signed a letter to Premier Asquith appealing to him to put a stop to the forcible feeding of suffragette prisoners.

The writers declare that the employment of forcible feeding is barbarous, cruel and disgusting and that, regarded as a deterrent, has proved futile. "We regard it as a dangerous and exaggerating element," they say, "and in the present deplorable state of affairs we cannot stand silently by and see parliamentaries, possibly over a period of many months, the forcible feeding is going on in English prisons. We assure you that the practice of public bitterness and resentment over it among otherwise peaceable and law-abiding women is the greatest social danger of our life."

BELIEVED AMSK MURDERERS HAVE BEEN ARRESTED

Three Men Traced From Vicinity of Crime to Havre, Montana, and Are Now Being Brought Back to Maple Creek, Sask., for Identification—Men Were Chased to International Boundary by Sergeant McBrayne, of R.N.W.M.P.

Three men believed to be the men shot J. B. Chirca. The clue appeared to be the best yet, and it has been followed so far with success. The three men were pursued by Sergeant McBrayne as far as the international boundary, where he relinquished the chase in favor of another officer of the law. The men were tracked the way to Havre, Montana, and placed under arrest. They are now being brought back to Maple Creek, where they will be met by Sergeant McBrayne and witnesses who saw the gang at Amisk.

The fact that the men are being brought so far indicates that their resemblance to the outlaws is very strong.

SOLICITOR'S DEATH IN PORCUPINE CASE DEMANDS INQUIRY

James Knowles, Son of Rev. R. B. Knowles, of Toronto, Dies From Blow.

HAD CIVIC OFFICIALS REMOVED FROM OFFICE

Transpires That There Was Great Deal of Hostility Against Deceased.

Toronto, July 7.—Strange rumors concerning the death of James Knowles, son of the Rev. Robert B. Knowles, of Toronto, who died at South Porcupine, June 13, as a result of injuries on the head, caused by a blow from a milk bottle at the hands of Emile Lebrun, are beginning to be heard. While the inquest disclosed practically little beyond the fact that Lebrun struck the blow, and alleged it to be a result of a personal altercation with Knowles, it is now known that there is a much deeper significance to the affair.

Rumors have it that two days before Mr. Knowles died he was assaulted by a "prominent citizen," of South Porcupine, and the blow was struck on the left eye. There was no mention at the inquest as to the extent of these injuries, but a post-mortem report only dealt with the effect of Lebrun's blow.

Mr. Knowles had aroused great personal hostility against himself, and on account of his activity in civic affairs, was considered an irregularity in office and was himself appointed solicitor for the township in the place of the man who retired. Whether the first assault against him, as well as the later attack by Lebrun, were the result of this hostile feeling is not disclosed, but the facts are considered of sufficient importance by the attorney-general's department to warrant a special investigation.

"I will write at once to the crown attorney and ask him to look into the matter," said J. H. Cartwright, deputy attorney general last night in answer to a request as to what would be done in view of the rumors afloat.

The letter to the crown attorney is the first step towards having the matter thoroughly ventilated, and if his investigation warrants it, a special officer may be brought in to investigate the facts, with the view of subsequent proceedings.

SUGGESTS PROMPT DELIVERIES OF OIL CERTIFICATES

"If it is not criminal then it is rank carelessness," is the way Magistrate Maclellan in the police court yesterday declared the method of any oil company which neglects to see that stock certificates are delivered within reasonable time to purchasers of oil stock. The fact that some companies are not prompt in their deliveries of certificates to purchasers of oil stock, as selling agent, who was employed by oil firms who had an agency for oil stock, wanted the certificates for 15 days for stock, but they had not been produced. The court gave Scott just one day to produce same.

DODD'S KIDNEY PILLS

For William, July 7.—After an illness of several weeks, Captain McBrayne, harbor master in Port William, died Saturday afternoon. He was recovering from one paralytic stroke when a second came. Captain McBrayne was an old-timer in the city and had been harbor master for years.

CAUSE OF MAN'S DEATH IS STILL IN DOUBT

Demise Not Due to Drowning But to Three-Inch Gash in Throat.

CUT INFLICTED BEFORE BODY ENTERED WATER

Whether Adjoined for One Week—Many Theories as to Affair.

That the unknown man who was found in the river Sunday morning, and who as yet has not been identified, died through the wound in the throat, was the opinion of Dr. Landry and Jamieson, who held an autopsy over the body. It was not able to fully ascertain whether the wound was made before or after death, but it is believed it was made before, and the wound in the throat was three inches deep. The body was found in the river about five miles east of the city near the Humboldt mine, and it was when the body was taken from the water that the wound in the throat was first noticed.

Whether or not the wound was self-inflicted is a most difficult one to decide as a number of theories have been advanced as to the possible infliction of the big cut in the throat. One theory is that the man was in a struggle with the water and either fell or rolled into the water. The theory that the deceased had had himself injured and then died is also a possibility.

Just below the Adam's apple, although the ligular veins were not cut. One theory was that the man was in a struggle with the water and either fell or rolled into the water. The theory that the deceased had had himself injured and then died is also a possibility.

Conner Pulin was of the opinion that a gash of such a nature was not likely the act of a suicide, and this being considered, brought out the facts that the body was well nourished and showed no signs of ill-health or disease and therefore nothing to account for a suicidal act on the part of the man. The other hand the strong and muscular build of the man would lead one to believe that a man would not have allowed anyone to cut his throat unless he had been drunk, under a most strenuous struggle, and there were no other signs of bruises on the head or elsewhere. It is also thought that had there been a struggle the cut in the throat would not have been so clearly made.

The probable facts of the case are many and varied and the inquiry was adjourned for another week, until Monday evening next. Just before the body went in the water is another matter for discussion as it may have been some distance up the river and been carried down by the swift current, although the belief is that the man died in the water.

There was nothing on the man's body to indicate his identity, and the police are supposed to have been the man who is supposed to have disappeared from Beverly, east of the city, and the police are supposed to have been the man who is supposed to have disappeared from Beverly, east of the city, and the police are supposed to have been the man who is supposed to have disappeared from Beverly, east of the city.

Port Hundred Years Old. Paris, July 7.—Francis Fortin, the oldest living poet, completed his 100th year last week, when he received a delegation from the society of literary men, whose president, Georges Leconte, presented him with an eighteenth century gold medal, made a speech of congratulation and unveiled a portrait built by the sculptor, Beniamin.

Police Chief Suspended. Hull, Que., July 7.—Hull city council last night suspended Chief of Police Chevalier pending an investigation into charges of misconduct made against him by High Constable Groulx. It is alleged Chevalier frequents a house where liquor was illicitly sold.

Panama and the Canal This beautiful big volume is written by Willis J. Abbot, a writer of international renown, and is the acknowledged standard reference work of the great Canal Zone. It is a splendid large book of almost 500 pages, 9x12 inches in size; printed from new type, large and clear, on special paper; bound in gold, with inlaid color panels; contains more than 600 magnificent illustrations, including beautiful reproductions from water color studies in colorings that far surpass any work of a similar character. Call and see this beautiful book that would sell for \$4 under usual conditions, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and only the \$1.20 (Sent by Mail, Postage Paid, for \$1.60 and 6 Certificates)

Panama and the Canal Regular Octavo size; text matter practically the same as the \$4 volume; bound in blue vellum cloth; contains only 150 photographic reproductions, and the color plates are omitted. This book would sell at \$2 under usual conditions, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and only the \$1.20 (Sent by Mail, Postage Paid, for 70 Cents and 6 Certificates)

\$2 OCTAVO Expense Amount of 50c

WOMAN'S MURDER PRESENTS MANY BAFFLING POINTS

Detectives Begin Work on Search for Clues in Mysterious Newpore Case.

ACTIONS OF PHYSICIAN'S WIFE SUBJECT OF INQUIRY
Witnesses Flatly Contradict Her Testimony, While Her Maid is Blank.

Freeport, N.Y., July 7.—The head of a national detective agency arrived here last night and began an investigation into the murder of Mrs. Louise Bailey, who was shot and killed in the office of Dr. Edwin Carman last Tuesday night. This detective is in the employ of the Nassau county authorities, and a total of 10 men from his office are working on the case.

The inquiry into the murder of Mrs. Bailey was adjourned yesterday till Wednesday. This action was taken to give the authorities a chance to investigate several new clues and to look into the story told Sunday night by Dr. Carman, who informed the police that a bicyclist who had followed his automobile from Rockville Center, near here, and fired three shots at him while he was driving along a lonely stretch of road.

Four persons living near the spot where Dr. Carman said the attempt was made upon his life, told investigators that they too had heard shots. Investigators were unable, however, to find anyone who had heard the shot which J. W. Huff, Jr., a resident of Lynbrook, a neighboring village, said was fired at him early yesterday morning, while he was driving his automobile outside of Freeport. Huff, who remembers Dr. Carman in figure and face, is the owner of an automobile of a type similar to one of the several owned by the physician.

The inquiry was adjourned after several witnesses had been heard. Two of these witnesses, Miss Hazel Combs, a patient of Dr. Carman, and Miss Anna Kahn, a friend who accompanied her to the office of the physician less than an hour before Mrs. Bailey was murdered, flatly contradicted Mrs. Carman's statement that she was not walking around the ground floor of her home that night, was not in her husband's office and had not admitted any patients who called. Both these women swore that they had seen Mrs. Carman enter her husband's office to answer the telephone, and they corroborated the testimony of George Goldstein, the witness who testified on Friday that Mrs. Carman had admitted him to the house.

The coronation, combined with the testimony given by a negro maid, in the Carman home, contradicted what was declared by District Attorney Smith, to be the most important information elicited during the day's proceedings. The maid, who admitted that she had a long talk with George Levy, counsel for Mrs. Carman, the morning after the murder, appeared to be troubled with a serious loss of memory. To many vital questions she answered: "I don't remember."

Dr. Carman yesterday afternoon secured a permit to carry a pistol in making application for the permit, he told a justice of the peace that he feared another attempt would be made on his life and that he needed the weapon to protect himself.

No Alimony—Just a Separation
Peaceful, quiet separation—damages done, everybody happy again—that's the situation when you divorce your wife with Extraordinary Court Extractions. Acts like magic—don't use any but "Putnam's"—it's the best, 25c. at all dealers.

SOLD HUSBAND TO HALF-BREED MEXICAN GIRL

Extraordinary Nuptial Agreement is Revealed in Illinois Suit for Divorce.

Bloomington, Ill., July 7.—An extraordinary nuptial agreement was made public in the filing of an answer this week by Charles Cox in the Du Page County Circuit Court to the charges in a bill for divorce.

The reply told the story of the "dying love" of his wife which led to a contract which gave him permission to live as the husband of a handsome Indian girl to whom he became attracted while making his home in Mexico. It recites the details of an alleged agreement whereby Mrs. Cox relinquished her husband to Maria Reyes Castillejos, a highly educated Mexican girl, for a monetary consideration.

The married life of the defendant and his wife is dwelt upon at length in the answer, which asserts that the couple made their home in a hotel for many years, the wife declining to keep house. As a result of the hotel life Cox became ill, principally due to the fact that the food was unfit for eat. Cox demanded that the wife agree to a change in their method of living and that they keep house and thus enable him to secure food which would be healthful and strengthening. In addition to her insistence upon living in a hotel he charged her with the possession of a "raucous social ambition" and as a result of her extravagance she always kept poverty dogging at the heels of the defendant, cursing him with the cruel bitter curse of unrequited love through her everlasting demands made upon him for money, as the bill reads.

In 1908 he prevailed upon his wife to agree to a separation. He procured a housekeeper to cook his meals and he thereafter lived in comfort and regained his health.

The husband declares that he has been engaged in railroad work for the past twenty-five years, but that during the greater portion of this period his wife resided in the United States while he was in Mexico. When she left him, Cox asserts, he gave her \$7,000 in cash and mining stock.

Regarding this settlement the answer reads: "And in consideration thereof the defendant then and there agreed to separate from the defendant and forever afterward live separate and apart, and further, did agree with this defendant that he should from henceforth live with the said Marie Reyes Castillejos, and in every sense of the word, enjoy all of the privileges of a real home with her. And in pursuance of such consent, the complainant did then execute and deliver to the said Marie Reyes Castillejos her written consent that she should live with the defendant forever afterward and do everything and furnish him with all of the comforts of a home."

HUDSON'S BAY

Annual July Clearance Sale

COMMENCES THURSDAY AND LASTS NINE FULL DAYS. It will provide opportunity unexampled by other recent sales. WEDNESDAY'S CAPITAL WILL GIVE DETAILS ABOUT THE SALE

SETTLERS LOOKING FURTHER NORTH IN THE PEACE RIVER

Trend of Settlement is Now Turning Towards Fort Vermilion—Some of Most Fertile Lands in All Alberta—Important Development of Transportation Facilities Taking Place.

That settlement which has for the past few years been tending westwards towards the Grande Prairie country is now looking to the fertile stretches to the north between Peace River Crossing and Fort Vermilion is the statement of George Miesner, M.A., who, besides being Methodist minister at Peace River Crossing, is also secretary to the board of trade. Mr. Miesner states that those who know this country claim that there is no better agricultural country anywhere in Alberta than the land in the vicinity of White Mud river, Battle river, and along the Peace from Wolverine point to the Vermilion Chutes. A splendid exhibit of grain and grasses, including wheat, oats, barley, peas and timothy hay is on view to incoming settlers at the board of trade rooms at Peace River Crossing.

Rail and Steamboat.
Mr. Miesner expresses the view that Peace River Crossing has been held back on account of the lack of transportation facilities, and states that it is expected that this difficulty will be in some measure at least overcome by next year. The Canada Central railway, which is a branch of the Edmonton, Dunsmuir and B.C. railway, has a large cache of provisions thirty-five miles from Peace River Crossing and it is the intention of the contractor to complete the grading to within twenty miles of the crossing this winter. There is also looked for a development of the water transportation facilities on the Peace. The Hudson's Bay

boat, which has been lying between Port Cornwall and Athabasca, on the Athabasca river, is now on the way to the Peace, and it is also understood that at the next high water the boat from Lesser Slave Lake is likely to be taken either to the lower waters of the Peace or to the Mackenzie.

2,000 Miles River.
Arrangements have been made for the handling of all the Mackenzie freight from Peace River Crossing next year. It is perhaps not generally known that there are two portages between Peace River Crossing and the Arctic Ocean and one of these, at the Vermilion Chutes, is very short. There is no navigation up the Peace as far as Hudson's Hope. Thus, with the exception of the two portages mentioned, there is a distance of 2,000 miles of unbroken waterway tributary to Peace River Crossing. The ferry over the Peace at the Crossing has been remodelled and is now being operated successfully. A pontoon bridge has been constructed over the Hart River at Peace River Crossing to serve until a permanent structure can be erected.

Floods Not Serious.
The highest water in seven years has been experienced during the past few weeks. A portion of the lower reaches at the Crossing was submerged—but only for a period of forty-eight hours. No important buildings were situated in the flooded area and practically no damage was done. A little drying will prevent any recurrence of this danger.

Mr. Miesner made the trip from the Crossing to Ground in four and a half days. The bridges waded out by the flood have been repaired or replaced so that light loads can be handled. There are still two places where it is necessary to do a little rafting, one at South Hart River where the meadows were flooded, and one at Buffalo Bay at the eastern end of Lesser Slave Lake.

Crops in Good Shape.
The crops, Mr. Miesner states, are all that could be desired. Several buildings are in course of construction at the Crossing, including a roller skating rink, a new school house, and a new livery barn. There are now at the Crossing ten general stores, three drug stores, one hardware store, two ice cream parlors, two flour and feed stores, one shoemaker's shop, two hotels, two rooming houses, six cafes, three bakeries, three barber shops, two banks, five real estate offices, three blacksmith shops, one garage, six livery barns, five pool halls, one moving picture theater, two shooting galleries, one cash and door factory, four saw mills, four building contractors, two steamboat lines, two fox farms, two lawyers, two doctors, one public school, an Anglican and a Methodist church. The nominations for the first village council took place on the 3rd and the election will be held on July 16. Application will be made for incorporation as a town as soon as the necessary three months have expired and the necessary formalities have been complied with.

Mr. Miesner is staying at the Alberta college, north side.

OLD COUNTRY CRICKET
London, July 7.—The home county faced badly at the hands of Surrey in a county cricket fixture, when the Southern Invaders hammered and defeated the Lancastrians by an innings and two runs. Hayes was in good form for Surrey, and compiled 102 while Hayward made 76 and Hobbs 64 for Lancashire. Duxart hit out 87, Make Peace 81, and St. John 46.

The match was started Saturday. The home 11, Yorkshire, were also defeated by Kent at Sheffield by five wickets, the match commencing yesterday. Killer for Yorkshire was high scorer with 50. Both Jack and Kent bowled for 43 runs while Blythe for Kent, sent eight Yorkshire batsmen out for 55 runs.

WEDNESDAY HALF DAY

At HUDSON'S BAY

Men Can Make Luscious Half-Day Savings! Here Are the Pointers

AND LIVELY POINTERS THEY ARE TOO!—REMINERS that in our rush to do a whole day's business in just half, we've included the Men's store and expect such radically low prices to accomplish what we've set out to do,—same as in every one of our other specialty stores. CONSERVATION OF CANADA'S HEALTH IS WORK PROPOSED

Commission Will Undertake New Line of Work in Addition to Resources, THOUGHT MANY DEATHS MAY BE SAVED YEARLY Claimed That 40 Per Cent of Mortality is Due to Preventible Disease.

Ottawa, July 7.—The work of the Commission of Conservation of Canada will be extended shortly along new and important lines. To the task of conserving the natural resources of the dominion will be added the conservation of public health and the education of the general public in matters pertaining to this. On August 1, the first number of a publication dealing with public health, public hygiene, sanitation and similar subjects, will be issued. After that date it will be issued monthly and copies distributed to all on the mailing list of the commission as well as all doctors, teachers and others interested in the work. By means of this publication it is intended to carry on a vigorous campaign for the education of the public on this question, so important to national progress. A similar campaign has been in progress in the United States for a number of years, under the control of the boards of health of the different states and has been attended with marked success and a distinct improvement of conditions. It was at one time proposed to establish a national board of health as a separate department of the dominion government, but it has now been decided that the field should be developed by the Conservation Commission. When the fact is taken into consideration that out of the 100,000 deaths, more or less, in Canada last year, 40,000 were caused by diseases which could have been prevented by a proper regard for sanitation, some idea will be gained of the importance of the task assumed by the commission. The question of water supply will be gone into very carefully in the early part of the investigation of conditions.

WINGED "MONSTER" FROM SKY CLAWS THREE PERSONS

St. Louis, July 7.—A winged object of unknown species has been hovering about the vicinity of Bell, Page and Maple avenues for the last week and swooping down upon residents there. Mrs. E. G. Davis, 5442 Page boulevard, and Horace Milken, 5514 Maple avenue, have suffered lacerated scalps and the children in the neighborhood have been scratched and frightened by it. The children were the first to report the presence. Their tales of a winged monster that swooped down in the dusk of the evening were received with smiles by the fond but doubting parents. Monday evening Milken was strolling in his back yard when the bird, or whatever it is, hovered viciously at his head. A straw hat prevented serious injury to his scalp. Tantalizingly near he reached him when he related his experience. And then a woman felt the force of what he was saying. In the neighborhood as the "flying death." Mrs. Davis, 5442 Page boulevard, was taking a solitary promenade Monday evening in the confines of her garden walls when the "flying death" descended. She does not have much to say, but a lacerated scalp and several missing strands of hair speak louder than words. And the "death" does not draw the color line. Tuesday night Sam De Libe, a negro, was attacked. The bird seems to resent danger. At any rate, it has not appeared on the numerous occasions when a noisy and damaging reception has awaited it. Some say it is an owl, others that it is a young eagle. Others describe it as a bat, and those who have not heard the vicious whirr of the creature declare it must have been a stone thrown by a prank-playing youngster.

Unemployed Get Work.
Ottawa, July 7.—A brighter outlook manifested itself in the ranks of the unemployed Ukrainians yesterday when 100 of them were hired by Messrs. D. A. Martin and Son, to work in the lumbering camps on Temiskaming lake.

BELIEVED HINDUS WILL IN FEW DAYS SAIL FOR ORIENT

Now That Order in Council Has Been Upheld, Others Can Be Deported.

ENTIRE POLICE FORCE TO ASSIST OFFICIALS

Those on Board Komagata Maru Resist the Return of Five "Traitors."

Vancouver, July 7.—Despite an ultimatum delivered by Japanese Consul Hattori the Hindus on the Komagata Maru this morning they refused to permit the five "traitors" whom they denounced last week to get back on the vessel. The efforts of the consul were directed towards getting the ship back into the control of Captain Yamamoto. It was threatened at one stage of the conference on the boat that a vessel would be moored alongside the Maru and a jet of hot steam would be blown on the Hindus to prevent them from interfering with the Japanese sailors, so that the latter could let the gang-plank down. Two or three times yesterday the Hindus on the vessel, created considerable noise, one time in particular when the uniformed boy scouts went by on the Princess Charlotte on their way to Victoria. The Hindus evidently thought the scouts a troop sent out to take the Maru. Several times the immigration boat with the five marked Hindus aboard sought to get them up the gang plank, but the Maru contingent would not lower the bow. Now that the court of appeal has upheld the order in council in regard to the deportation of Munshi Singh, the board of inquiry can proceed with its hearings and order the deportation of all of the remaining 352 Hindus on board the Komagata Maru who fall within the scope of the order in council. It is believed that each of the Hindus fall within the one or other of the clauses aimed at them by the court in council which the appeal court has upheld, namely:—
1. That he does not possess an entering Canada a sum of \$200 in his own right;
2. That he has come to Canada otherwise than by a continuous journey from his native land; and
3. That he is an unskilled laborer. The question of further appeal proceedings is one to be considered, but from inside information it is very unlikely that the Hindus will appeal. The cost of maintaining the vessel here with her passengers for a long time while further appeals are taken is one that is more than the local Hindus feel like shouldering. For the men on board the Komagata Maru are practically unknown as individuals to the local Hindus.

Mayor Baxter had a long conference yesterday with the immigration officials and the chief of police, with the result that the chief magistrate placed at the disposal of the immigration department the entire police force of the city if necessary in giving effect to the government's order-in-council. Now that the decision has gone against the Hindus it is believed that the Komagata will sail for the Orient in the course of a few days.

Woman's Grave Disturbed.
Welland, Ont., July 7.—The grave of Mrs. Barnes, who died at the age of 70 at Allandale, was found to have been disturbed some time ago and on Saturday a skull, believed to belong to her body, was taken up with the hay in a field adjoining the cemetery. Investigation showed that only the head was missing from the body in the grave. The motive is believed to be spite. County Crown Attorney Cooper has been asked to investigate the case.

For Smuggling from Canada Two Men Drowned
New York, July 7.—Herman J. Dietz, of New York, a diamond merchant and his son, Charles, were indicted yesterday by a federal grand jury here on 11 counts as participants in an alleged conspiracy to smuggle diamonds into the United States. Diamonds valued at from \$200,000 to \$500,000 were smuggled from Canada in 1911 and 1912.

Washington threatens to forbid the use of blinding headlights on automobiles.
Ottawa, July 7.—The record of charges of incorporation of companies by the state department for the fiscal year 1913-14, shows a decrease of 31, as compared with the previous fiscal year, while the revenue collected by the dominion government from this source fell away by \$1,822.74. The figures indicate that the money stringency has to a considerable degree affected the organization of stock companies. Nevertheless there was much activity along these lines, no less than 758 companies with a total capitalization of \$418,407,560 being organized, bringing to the department a total revenue of \$212,739.90. During the previous fiscal year 839 new companies, capitalized at \$686,742,199, were organized, the departmental revenue therefrom being \$204,652.99. During the fiscal year 1911-12 the figures were: Companies granted, 658; capitalization \$499,565,999; revenue, \$218,738.25.

LONDON NOT OVER-ENTHUSIASTIC OVER WELSH-RITCHIE BOUT TODAY

Welsh So Far Is Favored in Betting Although Americans Offer Slight Odds on American Champions—Ritchie Will Fight at 139 and Welsh at 135.

London, July 7.—(Statement by Freddie Welsh.)—“I was twice as many matches as Ritchie did before he won the championship, and seven times as many since. Consequently, I believe my greater experience, speed and ring generalship are superior to his reputed strength and punch.”

“Since defeating him two years ago last November, Ritchie is reported to have gained courage and a bookmaker to let \$10,000 for him on Welsh at odds of 5 to 4. He could not get any of the Ritchie backers to even nibble. The impression around town is the odds will be as good as 8 to 5 on Welsh at the ring side.”

Sam Bernard, Bob Vervosen, Harry Preston, Leonard Hicks, in fact, a great number of Americans in London are betting on Ritchie to win. But one Englishman had night ordered a bookmaker to let \$10,000 for him on Welsh at odds of 5 to 4. He could not get any of the Ritchie backers to even nibble. The impression around town is the odds will be as good as 8 to 5 on Welsh at the ring side.

Another result of this unusual state of affairs is the fact that the advance sale of seats is actually less than it was for the Wells-Bell fare, although the scale of prices is almost three times as high. However, Cochran, the promoter of both fights, expects to make a nice profit on both affairs.

Londoners many empty seats will be taken up by late comers who will trust to luck to get what they want at the Olympia tonight. Ritchie came to town last night from Brighton and moved into private apartments within a block of the arena, where he will stay until it is time for him to enter the ring. He looked happy and confident, and is in magnificent shape.

“If I am on the short end of the stick,” he said, “anybody ought to be able to get at least five to one on the knockout proposition.”

After weighing in at two o'clock today, Ritchie will eat a big dinner. He expects to enter the ring weighing about 135 pounds. Welsh is due to arrive about noon today from Cardiff, arriving at six o'clock in the morning, motoring 18 miles from Porthcawl to Cardiff, then riding three hours and a half in a railway train. Welsh is sure to be under the 135 pound English Beltweight limit, because every ounce more than 135 Welsh weighs means he is just that much slower.

Jack Coyne, his brother, Joe Coyne.

BATTING RALLY IN EIGHTH GAVE RED SOX FIRST GAME

Was Tie for Seven Innings—Hewitt Pitched Good Ball But Inclined to Be Wild—Praise for Lemieux—Score Was 5-2.

Regina, July 7.—Regina won the opening game in the Edmonton series in a batting rally in the eighth, sending three runs over the plate, and outwitting a 2-2 lead. The two-hour athletes wore the red hose for the first time and both made good. Harris proving the real goods lack of the waving bludgeon, while both he and Abbott contributed hits during the winning rally.

Hewitt pitched good ball for the visitors, although inclined to be wild. His best work was in the fourth, when after Willie had doubled and Berger singled, he made the three men at the top of the batting order pop out. Jack Smith's clean-up hit in the eighth was the big feature from the local viewpoint. Lemieux's work behind the bat was the leading feature. One minute he was digging them out out of the ground and the next pulling them out of the clouds. With a key man on the job it is said to imagine what would have happened to Hewitt. Wheeler did fair work.

The box score:

Edmonton	AB	R	H	PO	A	E
Fortier, ss.	4	0	1	3	2	0
Matt, 2b.	4	0	0	5	2	1

WHAT RITCHIE SAYS

A TRIP TO PANAMA

THE CAPITAL wants every one of its readers to take a trip to the GREAT PANAMA CANAL and see the wonders of this mighty achievement. You say you can't spare the time. All right, then we'll bring the Canal TO YOU—all in one BIG volume, filled with PICTURES of ACTUAL SCENES never before published, described in words that hold you spellbound. Read on, and learn how you may get this magnificent book—this complete story of Panama in picture and prose—

Not merely a picture book, but an educational work of rare interest to every member of the home.

FOR \$1.20 ONLY

Art plates reproduced from water-color studies abound throughout the entire magnificent volume.

Every progressive man, woman and child is eager to know all about the Panama Canal and the remarkable country through which it passes. Realizing this fact several hundred newspapers have arranged to take an enormous advance edition of the most elaborate and complete illustrated history of PANAMA AND THE CANAL, published by the Syndicate Publishing Co., of New York City.

This company is eminently fitted to issue such a work at a minimum cost. It has heretofore supplied through daily newspapers millions of high-class dictionaries and other books.

THE CAPITAL is the one paper in this section through which PANAMA AND THE CANAL IN PICTURE AND PROSE can be had. The plan outlined below tells you how to get this only complete Panama Book ALMOST FREE.

The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover, showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader. The illustrations are modern works of art, covering every important scene in the Canal Zone; they include 16 water-color plates with more than 600 photographic studies.

Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on international subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

\$400,000,000

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it? Truly it is the wonder of this progressive age!

PANAMA and the CANAL in PICTURE and PROSE

The Most Unusual Canal Scenes Described in Word Pictures That Fill You with Astonishment at the Wonders of this Great Undertaking

Learn How You Can Get This Beautiful Volume Almost Free

The greatly reduced illustration printed below shows less than half the size of the large illustrated volume

It tells you of the people of Panama and the Zone—their dress, their homes, their work and pastimes.

Compared to other similar standard books it is

Fully Worth **\$4.00**

and will be sold at this price after the present edition has been distributed. This unheard-of value to our readers represents more than an 80 per cent. saving.

HOW TO GET IT

In another column of this paper is printed daily a Panama Certificate. To get Panama and the Canal in Picture and Prose at less than the usual cost of printing and binding, clip and present

6 PANAMA CERTIFICATES OF CONSECUTIVE DATES

to this office as named therein, with the expense amount herein set opposite the style selected (which covers the items of the cost of packing, express from the factory, checking, clerk hire and other necessary EXPENSE items), and receive your choice of these books:

Panama and the Canal in Picture and Prose \$4 Illustrated Edition

This beautiful big volume is the acknowledged standard reference work of the great Canal Zone.
